

River Reflections Activity Sheet

See how many different reflections you can spot down at the river

You will need

- a camera or camera mobile phone
- a set of River Reflections cards

- 1** Pick a **River Reflections card** and then see if you can spot this reflection in the river. It might be a reflection of a natural or man-made feature, a small object, or a large landscape.

Note to Parents

Encourage your child to take more than one photo of each type of reflection so that they have a selection to choose from when picking their favourite.

- 2** When you've got the photo you want, pick another **River Reflections card** and take a photo of that type of reflection.

- 3** Keep going until you've used up all your **River Reflections cards**.

- 4** Now flick through your selection of photos and pick out:

- the most beautiful reflection
- the weirdest reflection
- the most amazing reflection

Take it further

When you get home, why not edit your photos using Pixlr or Camera2 - see how crazy you can make your reflections!

Or

Print your photos and make a photo-montage to put in a scrap book, journal or photo frame as a reminder of your visit to the river.

Why not create a poem about your favourite reflection?

We'd love to see your river reflections - email them to office@edenrt.org and you could see your reflection on our website!
