

# Water bingo

## Activity

Challenge your family to save water by playing water bingo with everyone at home. When anyone completes one of the activities, ask them to sign or tick the box and see how quickly you can complete a line or get a full house! Just making small changes can add up to a big difference to how much water we have and how clean and healthy it is!

<p>Only used the short flush to flush away a wee</p> 	<p>Collected rainwater to water plants</p> 	<p>Made sure the washing machine or dishwasher was full before switching it on and used ECO mode</p> 	<p>Spent less time in the shower</p> 
<p>Only EVER flush pee, poo and paper down the toilet.</p> 	<p>Talked to someone in my family about how we can save water</p> 	<p>Put the plug in when washing my hands</p> 	<p>Helped prevent fatbergs by using a paper towel to wipe fat off dirty pans instead of washing down the sink</p> 
<p>Reused my water bottle/cup instead of buying a bottle/can of drink</p> 	<p>Had a shower instead of a bath</p> 	<p>Turned off the tap when brushing my teeth.</p> 	<p>Collected the water from the hot tap that came through before it ran warm</p> 

If you've enjoyed this challenge, why not continue? Sign up to make at least one of these changes to your everyday life for two months and make your promise to Act for Eden. Visit [www.actforeden.org.uk](http://www.actforeden.org.uk) for details/to sign up!
